

Standard Operating Procedure for Data Validation and Verification (General University) for HEIs (updated as on 9/7/19)

General Guidelines:

- The NAAC Portal supports only 5MB data for each metric. To the extent possible, kindly upload the data in NAAC website only. If the attachments exceed 5MB, host the supporting documents in the HEI's website and provide the link of the same in the template and/or in the HEI-DVV clarification space.
- While providing the links of the HEI's website where the supporting documents are hosted, provide the link in the HEI clarification box. While providing the links in running text, press "enter" and then paste the link and again press "enter". This will enable hyperlink.
- Provide the relevant supporting documents during the SSR submission to facilitate speedy DVV clarification process.
- It is mandatory to fill the templates in format provided by NAAC and attach the same in SSR. The HEI is not supposed to alter the format in which data is sought in the template.
- **The documents uploaded should be clearly readable for the claims to be considered.**
- It is mandatory to respond to all the DVV clarification raised in extended profile and metrics within stipulated time. If the data is large, ensure to fill the data template. During DVV clarification, the DVV will seek for sample selective documents for validation. It is mandatory to provide documents of all the samples sought by DVV, failing which pro rata data will be considered.
- Data should not be hosted in Google drive and in any third party websites. The data should be both in the NAAC portal and in the HEI website.
- **Once the data is uploaded, the changes in the content of the link regarding NAAC documents will be tracked.**

- **The data that are hosted in the HEI's website should not be changed after the submission of link to the NAAC. Such incidences will be viewed seriously as misappropriation of data and may lead to actions against the HEI.**
- While providing links, the institution should ensure that the links are working properly and are operational. The institution also should give the links as appropriate to the metric and not general links whose landing page is the HEI's home page. In case the links does not work during DVV clarification, it would deem fit to the decision of DVV.
- Content of the supporting documents in regional languages should be translated in English and should be duly signed by the head of the institution. The translated copy should be uploaded along with the regional language document also.
- All the documents required by DVV need to be approved by the Competent Authorities.
- Geo-tagging: Kindly follow the steps to obtain a Geo-tagged photo:
 - (1) In setting of your digital camera, set the location on.
 - (2) If you are taking photos in a smart phone, then set the location on.
 - (3) Take pictures after setting the location on.
 - (4) Download the pictures in a computer system and examine the properties. In properties, click on the details tab, scroll down to see GPS: you will see something like the picture provided below, the value entries in latitude and longitude will determine the location in which the photo was taken.
